## Voice Writing Method

Bettye Keyes, CCR, CSR, CVR, RVR

**FOURTH EDITION**

**Voice Writing Method** offers readers a simple introduction to voice-based reporting as well as step-by-step guidance to master transcription with speech recognition—with or without a CAT program. Match your skills with any realtime career choice:

- court reporting · broadcast captioning
- CART (communications access realtime translation)
- financial call reporting · other realtime careers

Your order also includes **SpeedMaster™**, the companion CD to **Voice Writing Method**. **SpeedMaster™** speed-building software is designed to help you rapidly build dictation speed as you increase speech recognition accuracy. Perform dictation sessions at your own comfortable pace with unlimited practice material and take the guesswork out of measuring speed-building progress.

### Read what others have to say. . .

Many of our customers find it quite difficult to overcome the many obstacles to obtaining accurate recognition when using speech recognition software. We always recommend they buy and read Voice Writing Method by Bettye Keyes. It is the one indispensable guide for answering all their questions and should be part of everyone's library who uses this technology.

-Steve Webb, PhD, of Talk Technologies, Inc.  
(Inventors of the Sylencer® and SmartMic™)

Bettye's book is the most comprehensive book on voice writing available anywhere. It will be the most used reference book in your library. I refer to it often and I have been teaching voice writing students for several years.

-Ardith Spies, Director of Verbatim Careers Institute

I enjoyed reading Voice Writing Method. I am a voice captionist for Deaf and hard-of-hearing students in postsecondary education. It was clear, precise, and taught me so many new and important tips... Never before did I feel it necessary to highlight text in a book, until now. I was totally obsessed with reading it and whizzed through it in one week. The language was easy to understand and user friendly! What a great book!!!

-Maryellen Smolka, Interpreter and Captionist
